

# INNOVATOR

of the YEAR AWARDS

## Stuart Frost

*Chairman & CEO*

### Professional Biography

Stuart Frost is chairman and CEO of Frost Data Capital, a combined incubator and venture capital firm which has launched more than 20 technology startups that have raised more than \$110 million. The company has built a unique ecosystem of innovative startups focused on big data, data analytics, the industrial internet of things (IoT) space, and health care IT. Strategic partners in these startups include companies like General Electric and Symantec.

Frost is a highly successful, serial high-tech entrepreneur with more than 25 years of experience as a founder, CEO, and chairman of early stage software companies. Previously, Frost was general manager of strategy for the Database Systems Group of Microsoft. Frost also founded DATAlegro, a data warehousing company, where he was CEO through to the company's successful acquisition by Microsoft in 2008. Before that, he was founder and CEO of SELECT Software Tools, where he led the company through rapid growth and expansion, including a very successful IPO in 1996. Frost has a degree in Electronics Engineering from the University of Nottingham.

Frost was honored in 2015 as an Orange County Business Journal Innovator of the Year Award recipient.
