

The San Diego Business Journal and Cyber Center of Excellence (CCOE) are excited to launch the inaugural **Cybersecurity Stewardship Awards** celebrating companies, academic institutions, municipalities, government agencies, nonprofits, and the Cybersecurity Executive of the Year, going above and beyond to innovate new technologies and solutions, seed and diversify the talent pipeline, and create a more secure San Diego.

Cybersecurity is now everyone's business. With the FBI reporting a 300% increase in cybercrimes across all industries during the pandemic and a global shortfall of 3.5 million cyber professionals, it's more critical than ever to address this systemic risk. We are so proud to see the San Diego region heeding the call and working together to develop the next generation of cyber warriors, defenses, and innovations.

Please join us in congratulating all of the amazing finalists. And, many thanks to our diligent panel of judges. We appreciate your commitment to advancing the region's cyber workforce, critical infrastructure, and global market share for an industry that impacts more than 24,000 jobs and invests \$3.5 billion into San Diego's economy. Stay tuned for the October 25 issue when we announce the first winners of the Cybersecurity Stewardship Awards!

- Barb Chodos, President & Publisher, San Diego Business Journal
- Lisa Easterly, President & CEO, Cyber Center of Excellence
