### ENGINEERING

New Hire

**Darrell Thompson**

**CEC** welcomes **Darrell Thompson**, vice president, an experienced environmental consultant and solid waste engineer specializing in landfill gas engineering, operations, and compliance. He brings 24 years of experience with projects in California. Darrell will lead CEC's effort to grow our client base and operations in California and across the western United States, further solidifying our coast-to-coast coverage. In his most recent role prior to CEC, Darrell oversaw a business unit comprising environmental consulting, engineering, field services, air quality permitting, compliance, renewable energy, and equipment for the landfill gas and leachate industry.
