The 2021 GIVING GUIDE

Dear Readers,

Our world certainly changed over the past year, and with that change came the need for innovation and creative thinking, turning crisis and survival skills into new and sustainable ideas for future growth. Many local nonprofit organizations have done exactly that- turning challenges into opportunity and creating new and engaging ways to interact with supporters. In fact, many of these new ideas are proving to be more productive and effective and will be continued into the future. Within this year's Giving Guide, we've highlighted a few of these ideas on pages 4 & 5 for inspiration for all.

Thank you to all the underwriters that helped make it possible for so many nonprofits to participate this year.

Thank you to our publication sponsors- Association of Fundraising Professionals (AFP), City National Bank, Melissa and University of California, Irvine (UCI).

And last but not least, thanks to our amazing OCBJ team: Jami Derby for editing the content and Rich Loyd, Martin Nilchian and Robert Martin for graphic design.

I'm proud to be part of such a giving community. I welcome the opportunity to talk further with any of you on ways to support our nonprofit friends so that they can continue to serve those in need in Orange County and beyond.

With great appreciation,

Amy Sfreddo
Philanthropy Publications Director

**DONATE A CLEAN
WATER WELL TODAY**

A GIVING HEART IS LIKE A RADIANT DIAMOND

Every 21 seconds, a child dies due to water-related diseases.

Since 2010, Wells of Life has provided access to safe water for more than 630,000 people in Uganda. Our goal is to exceed 1,000,000 people served by 2023.

When you donate a well to an impoverished village community you provide people time to proceed with daily life, including a fresh opportunity for children to return to school. Most important, a gift of clean water is a gift of life. Infant mortality is reduced significantly and the overall health of a village will be drastically improved.

Yes. You will transform lives!

For just \$8,000, you can donate a well to a needy village of up to 1,000 community members. 100% of your donation goes directly to the cost of drilling a deep water well.

The 2021 GIVING GUIDE

“In the middle of difficulty lies opportunity” - Albert Einstein

Susan B. Parks, President & CEO, United Way

In early 2020, Orange County United Way collaborated with Amazon Web Services to develop AssistOC, a highly secure web-enabled application that allows OC residents affected by COVID-19 to submit requests for financial assistance via a smartphone or personal computer.

While built for the immediate economic devastation of COVID-19, the AssistOC application can easily be repurposed to process claims during other emergencies, like the current Emergency Rental Assistance Program with the County of Orange.

The application ensures funds are getting into the hands of those that need it the most. This gives us a scalpel like approach to very complex community challenges.

Autumn Strier, MPA, Co-founder & CEO, Miracles for Kids

2020 presented us with the challenge of reimagining our annual Night of Miracles Gala in a way that would preserve the energy of a single room filled with 500+ supporters – and execute it safely during the pandemic. Board members and donors stepped up to host 7 intimate outdoor dinner parties from OC to Palm Springs to Punta Mita - that we connected via live feed to our one main (socially distanced) outdoor broadcast venue. Each party was united in Gala theme and décor, but also reflected the individual flair of each host. An exciting \$500,000 match challenge, Sotheby's style live auction, and competitions between locations kept the excitement going throughout the night. Through technology and ingenuity, we were able to connect 300+ and set a new fundraising record for our organization. We will definitely consider live feeds from multiple venues in years to come as it proved to be a way to increase connection, fundraising and our geographical footprint.

Dawn S. Reese, CEO, The Wooden Floor

Helping The Wooden Floor students bridge the digital divide by providing them with over 225 free laptops, funded by the generosity of our supporters, led to the idea to leverage technology to create greater connection, student and parent engagement, and a new method of delivery for our creative youth development curriculum. Technology will remain a part of our ongoing strategy as we are piloting and assessing what is working in order to seize opportunities based upon the freedom technology provides from traditional limitations such as afterschool program hours and facility space requirements. Additionally, we are evaluating our ability to scale select parent programming and psycho-educational workshops to new hours because families can now access technology via the laptops that we provided to their children. Helping to close the digital divide, which should be a collective responsibility, yielded unintended positive possibilities for our future programming post-pandemic.

Paul Leon, RN, BSN, PHN, CEO, Illumination Foundation

In March 2020, Illumination Foundation was selected by the Orange County Health Care Agency to lead Orange County's COVID-19 mitigation efforts through Project Roomkey. In order to run this project effectively, we hired and increased our staff by almost 50% in just six weeks. We needed this level of staffing to establish six Project Roomkey sites in four weeks. Illumination Foundation was able to reach this level of staffing through a multi-faceted approach including a consistent social media campaign, an increase in advertising through online job sites, a referral campaign to our staff and donor base as well as utilizing temporary agencies specializing in healthcare as needed.

During this time, 2,552 individuals were served by Illumination Foundation program sites and 100,306 safe bednights were provided to this vulnerable population. The increased staffing required collaboration, cooperation, additional resources and training, internal and external support, flexibility and an unbridled appreciation for front line staff. Being able to serve the community and positively impact the health of this vulnerable population during COVID-19 demonstrated that planning, strategy and a well-trained staff can handle the most challenging of situations.

Michelle Wulfestieg, Executive Director, Southern California Hospice Foundation

When the pandemic hit, we knew that it was vitally important to stay connected to the community. We needed people to know that SoCal Hospice Foundation was still here and that their support was still desperately needed. Communication was key.

So, we began a monthly newsletter, which typically includes a note from our executive director, a patient spotlight, an article about a donor or volunteer, upcoming events, and a short list of 'action items' needed now to further engage donors. The newsletters are a thoughtful effort that requires concentrated attention, but it has increased our ability to engage with supporters and build deeper, more meaningful relationships.

In addition, the newsletter has resulted in greater financial support, with an average of \$500.00 per month in 'cash' donations that we never had before. The in-kind support has also been tremendous, resulting in the procurement of thousands of articles of Personal Protective Equipment and food for hospice families facing food insecurity.

Like many others, we also engaged in virtual meetings and found gotomeeting.com to be our best platform choice as it's only \$50/month and unlimited time!

The 2021 GIVING GUIDE

What Nonprofit Leaders Learned from 2020

Regan Dean Phillips, M.S.W., J.D., CEO, CASA Orange County

Over this past year, CASA of Orange County saw a notable increase in the number of community volunteers attending information sessions and going through the 30 hours of mandated training to become a Court Appointed Special Advocate. Our increase in volunteers (along with COVID restrictions) required us to think differently about our volunteer training program. We switched to a virtual model of training community volunteers because these trainings in person were no longer an option. We found that virtual trainings were much more efficient and allowed us to train more volunteers. It has decreased the commitment for prospective volunteers by eliminating driving to our offices in Santa Ana during weeknight evenings and allowed greater flexibility to our staff in facilitating the training. We have been able to meet our volunteers where they are and seen an increase of over 15% more volunteers being sworn-in compared to a year ago which allows more foster youth to benefit from CASA services.

Gregory C. Scott, President & CEO, Community Action Partnership

Community Action Partnership of Orange County (CAP OC) utilized a drive-thru model to serve clients safely, including FREE drive thru taxes. CAP OC is part of the United Way VITA program and provides free tax preparation for income qualified participants.

Client intake is over the phone and appointment is made to bring required documents.
Client drives up, documents are placed in a zip lock bag and a follow up appointment is scheduled.
A trained CAP OC staff member begins the filing process.
At the follow up appointment, client review taxes safely in the car, and sign consent for e-file submittal.

Kim (pseudonym) used the services last year and was thankful for the support.

"It's very stressful right now. I am worrying about my health, getting food. I have been going to the same place for years to do my taxes, but they have recently had to cease operations. Thank you so much for all that you do!"

To date, CAP OC still utilizes the drive thru model for taxes as well as for donation drives and food distributions and we plan to continue this newmodel into the future to maximize productivity and households we serve.

Haley Hagler, President & CEO, Meals on Wheels

Meals on Wheels OC typically holds an in-person awards dinner each year attended by over 600 Senior Care professionals. Given the pandemic, we pivoted to produce an engaging mini-documentary celebrating Orange County's resounding response to help seniors. The film debuted during a live virtual event that included local celebrities, special guests and an online auction. The premiere was free to attend and publicized to the general public, which broadened the viewing audience and engaged new contributors who felt moved to make donations after watching the film. The piece continues to be used as a long-term promotional tool for generating both press coverage and general mission awareness. This shift reduced overall event spending and increased ROI. The 7-minute documentary can be viewed at www.MealsOnWheelsOC.org.

Shelley Hoss, President & CEO, Orange County Community Foundation

My biggest takeaway from 2020 was the power of collaboration for swiftly and effectively responding to the challenges of the pandemic on our most vulnerable communities. A collective effort between the Orange County Community Foundation, Charitable Ventures, St. Joseph Community Partnership Fund and OC Grantmakers quickly yielded nearly \$4.8 million to support the work of 180 nonprofits on the front lines of community need. This allowed us to direct support where it was needed most, and to do so faster and more effectively than any one entity could do alone.

An additional benefit from this collective effort is that nearly 80% of OC funders say that they are likely to coordinate with other funders to meet goals and create long-term recovery going forward. This ongoing commitment to collaboration will be a key driver for the success of our local nonprofit sector.

Nicole Suydam, President & CEO, Goodwill of Orange County

Since in-person tours were no longer an option, we launched a monthly virtual tour format last fall called "See the Good" to educate potential donors and partners about our mission. Our virtual tour is about 40 minutes and includes diverse content with client video stories, drone video coverage of our facility and live remarks from our team to present a compelling story with an inspiring call to action to support our mission. LinkedIn has become a popular way to recruit guests to sign up and we find that up to 25 guests is about the right number to host with guest introductions and still feel like an intimate group for Q&A at the end. We do personal outreach to guests after each tour and the feedback has been outstanding. While we are excited to host in-person tours of our mission and operation again soon, we will continue to offer a virtual format as another impactful and efficient way to engage people in our mission.

Dedicating a Memorial Well

When you donate a well in honor of a loved one, you give life to an entire community. Every memorial well receives a dedication where the life of your loved one will be celebrated! A plaque will be placed to honor their life for years to come. The family will be provided with a beautiful photobook of the installation and dedication of the well that is sure to capture the impact of this living memorial.

A memorial well is a beautiful way to honor a loved one, a way to celebrate their life by providing an entire community with a lifeline of hope. Wells of Life will drill a clean water well (borehole) that will provide access to clean and safe drinking water to a community of up to 1,000 people.

Memorial Well Cost: \$8,000

The 2021 GIVING GUIDE

What inspires you to give?

My family and I have been given a lot by this country since we immigrated 35 years ago. We feel that giving back is a way to show gratitude for all that we've been given. I am blessed to have worked with a group of people for many years who have shared the same perspective on giving back to the communities we are a part of. The advancement of public education is a major focus, because that is the only way we're going to narrow the gap between social classes and provide opportunities for those who want to reach their full potential.

Summarize a personal experience you've had working with a nonprofit org that has had the greatest impact on you.

What we're experiencing with the pandemic reminds me of what I experienced during the civil war in Lebanon. I was volunteering at the American Hospital, and spent 80 days in the operating room helping doctors and nurses who were treating serious injuries and dealing with multiple casualties. It really helped me develop a perspective in my life and understand the difference between a problem and an inconvenience. It also gave me a strong appreciation for first responders, and the men and women on the front lines. I want to take this opportunity to thank all of the first responders.

What inspires you to give?

My brothers Ed, Mingo and I never imagined how successful Wahoo's Fish Taco would be. Still, it's always been about doing what we really care about, showing compassion for our community and always being authentic. "Keep your brand promise honest, and your business will bring you success."

Our deeper purpose has always been about our family being in business to feed your family. We see that as a stronger and more emotional connection with our customers. And our customers are loyal because we keep our promise to them every time they come into a Wahoo's store. We never let them down. They can count on us for anything. That's the power behind our brand. *Keep your brand promise honest and your business will bring you success.*

Summarize a personal experience you've had working with a nonprofit org that has had the greatest impact on you.

Like most other businesses, this pandemic forced us to change how we do what we do. It didn't make us change why we do it. We've been able to pivot what we've been doing in our stores during this pandemic to take care of our employees and their families, and even get meals to over 19,000 hungry frontline workers. This effort turned into the California Love Drop and ultimately turned into a movement. It's because of our connection with our loyal customers that we have the power to do this.

The California Love Drop has now "dropped" meals, beverages, treats, and supplies to hospitals, medical centers, police stations, fire departments, and more to over 200 locations. With support from multiple businesses, additional Love Drop branches have begun to support more local communities including Las Vegas, New Jersey, Erie, Pennsylvania and Texas Love Drops. Witnessing the positive impact created by so many is what has had the most significant impact on me. This is a time that I will always remember in giving a little to help so many. For more information on the California Love Drop, go to californialovedrop.org.

What inspires you to give?

We were both raised in very hardworking families that taught us not only the value of hard work, but also the value of giving back. Having been blessed with success, we believe there is a moral, and perhaps even spiritual value, sometimes bordering on obligation, to share the blessings we have received. As a couple we have been committed to planning our lives and reaching certain goals, and part of that planning has always included giving.

In fact, we even set budgets for our children starting from a young age, teaching them the importance of giving through their allowances. Each week, they were allowed to spend a portion of their money, but they also had to save and contribute portions. Fostering this commitment in our children reinforced our own focus on giving. Giving back comes from a place of feeling truly grateful, and wanting to share with those organizations that align with our beliefs. Over the years we have given to organizations that support everything from education and arts, to homelessness and HIV/AIDS services support, striving to always directly impact those in need.

Summarize a personal experience you've had working with a nonprofit org that has had the greatest impact on you.

CINDY: Being on the board of the Friendship Shelter has had the greatest impact on me personally. Before I really delved into homelessness and housing insecurity, I will admit I felt conflicted as I had such a strong pride in personal work ethic. Being part of this organization broke down any prejudices in me, and I now feel as the "adult" generation, having this crisis manifest on my watch is an indictment on my generation and myself. Strong words, but undeniably true.

BILL: For nearly 20 years I have participated in the AIDS/Lifecycle ride, striving to be one of the top fund raisers for the event each year, and also contributing as a corporate sponsor, the event focuses on raising money to assist the most vulnerable in our communities impacted by HIV and AIDS. We've also sponsored the Orange County Ride for Aids (OCRA) as well as Radiant Health Centers.

In the wake of the pandemic, we've focused over the past year on giving to organizations that tackle food insecurity and assist the working poor. Inspired by our own strong work ethic, seeing people who are willing to work, yet experiencing the despair of not knowing how they will survive and feed their families has touched Cindy and I deeply, and will continue to be a focus for our family and company, even after the crisis subsides.

What inspires you to give?

As an immigrant, I came to this country with a clarinet and twenty dollars in my pocket and committed to one day give back. Ling and I have been blessed in life and that inspires us to help make the world a better place. We want to give back and influence people to do the same. We have a lot of role models, and have seen a lot of people give back to make America a beautiful story.

Summarize a personal experience you've had working with a nonprofit organization that has had the greatest impact on you.

Ling and I love music and education – this is our passion. So it has been very rewarding working with Pacific Symphony and OC Music and Dance, which I am proud to say is Orange County's premier nonprofit community music and dance school. We were pleased to find a home for both of these organizations, in a building we bought in Irvine. Not only does music feed our souls, but we are gratified to experience how music and dance can transform lives. Watching the growth of the young musicians in Pacific Symphony Youth Ensembles and how their lives are changed through music is so important to us. We find joy in helping others.

Alzheimer's Orange County has **84,000** reasons to thank our generous donors

Since 1982, Alzheimer's Orange County (AlzOC), has been on a mission to provide care and support for 84,000 Orange County residents and their caregivers impacted by memory loss. For nearly 40 years we've been leading the way with brain health and dementia education, care consultations, community resource connections, residential memory care services and much more. When the COVID-19 challenge began, we stepped up our game to find creative new ways to assist those at greatest risk.

Now we're asking you to join others like Debi Pavlik & Jacqueline DuPont-Carlson, PhD, in directly supporting our programs and services.

Debi's unparalleled commitment to AlzOC comes from her family's direct experience dealing with the tragedy of dementia. She wants to ensure her children and grandchildren don't have to live in a world with Alzheimer's disease and knows that AlzOC will always help caregivers and families who are affected. She has chaired AlzOC's annual gala, her husband Tom serves on our golf tournament committee, and all of their children have participated in events by joining as guests or donating in-kind gifts.

As the Irvine Cottages Founder, Jacque has worked with older adults and those who experience cognitive impairment for more than 30 years. Honoring her grandfather, who died from Alzheimer's disease, she has supported AlzOC in many ways. She donated the Irvine Cottages multi-location residential facility to AlzOC to ensure that compassionate care would be provided to older adults who need assisted living and are stricken with dementia-related diseases.

**AlzOC thanks these amazing women for their endless generosity and support.
We hope they inspire you, or your company, to help make a difference.**

**All donations stay in Orange County, allowing us to respond to local needs.
To make a tax-deductible gift, visit alzoc.org/donate.**

THANK YOU, ORANGE COUNTY

Photo courtesy of Disneyland Resort

Because of you we were able to provide food, emergency rental and utility assistance, diapers and so much more to people who needed it the most during this past year.

The pandemic may have changed the way we live our lives, but it did not change the compassionate, caring community of Orange County.

Thank you for being our partner and for helping create change in our communities.

Since 1965, Community Action Partnership

of Orange County (CAP OC) has been there to meet immediate needs and empower communities. From the OC Food Bank to our Family Resource Centers and many more, we are able to help ensure our neighbors have what they need when they need it most.

This has only been made possible thanks to your generosity and ongoing support.

Thanks to all who have volunteered your time or gave a charitable gift.

We could not do it without you!

We're Building Game Changers.

We believe all kids deserve to feel excited to grow, safe to fail and better equipped for whatever comes at them next. At First Tee, we do this by helping them develop their swing, but more importantly, their inner strength; with coaches who help them navigate the course as well as guide them through new challenges. Because we know what's inside doesn't just count; it changes the game.

POWERED BY GIRL SCOUTS

“Girl Scouts has prepared me for a lifetime of leadership and empowered me to be an agent for change, in my community and beyond.”

Girl Advisor to the Girl Scouts of Orange County Board and Gold Award Girl Scout Sabine is opening up a world of opportunity for others, just as it has been opened for her. During her 13 years in Girl Scouts – from Daisy to Ambassador– Girls Scouts grew Sabine’s perspective on her community and the world. Traveling from San Francisco to Savannah, GA (the birthplace of the Girl Scouts movement), witnessing a presidential inauguration in Washington, DC, and helping to rescue marine life in Central America were invaluable experiences that took Sabine “beyond the textbook.” When it came time to design her Girl Scout Gold Award project (the highest award a Girl Scout can earn), Sabine naturally strove to give others the opportunity to learn outside the classroom too, starting clubs at elementary schools in her community that invited kids to participate in hands-on scientific experiments and grow a passion for science. Soon, thanks to the preparation of Girl Scouts, and on par with her continuing quest to bring opportunity to all, Sabine will join a delegation of Girl Scouts from across the nation, speaking to the U.N. Commission on the Status of Women about gender equality.

We know that girls have the power to change the world. When you support Girl Scouts as a volunteer or donor, you champion girl ambition and help Girl Scouts of Orange County provide all girls, regardless of age, background, or ability, the lifechanging benefits that Girl Scouts provides girls to dream big and do bigger.

COMMUNITY SUPPORT

We've all been touched by Hoag in one way or another. Some of us have been a concerned friend or family member, grateful that the one we care about is in the best place he or she can be. Some of us have been patients, experiencing firsthand the extraordinary level of care that Hoag provides. Many of us have had both experiences. All of us owe a debt of gratitude to the thousands of Hoag donors and volunteers who've come before us. With the community's continued partnership, Hoag is committed to being the gold standard of care in Orange County and across the nation.

► I♥OC Collaborative Giving Days continue to expand in 2021 to empower local nonprofits throughout the year – and across the county – to widen the circle of engagement, visibility and support. Since OCCF's initial i♥OC Giving Day in 2015, more than \$10 million has been raised to benefit local nonprofits. To learn more about this year's Giving Days, which are being announced throughout the year, visit oc-cf.org/iheartoc.

Learn more and support at heef.org.

GOALS FOR 2021

► In July 2020, OCCF's Board of Governors formed a Racial Justice and Equity Work Group committed to helping create an Orange County where all of our residents have the opportunity to thrive. This Work Group has now launched initiatives on three primary fronts in 2021: Learning & Strategy, Economic Opportunity and Educational Equity. We are committed to exploring all the ways in which OCCF can leverage its knowledge, experience, resources and relationships to create a more equitable Orange County, and look forward to working with our many partners in the nonprofit, business and philanthropic sectors toward this end.

► OCCF established the Orange County Social Innovation Fund in 2019 to support groundbreaking nonprofit efforts to solve entrenched problems with creative and sustainable solutions. Working with our donors and foundation partners, we are lending insight, experience and resources to fast-track the success of the best new ideas, emerging leaders and thriving organizations to bring game-changing impact to our community. In the first two years, 11 projects have received grants. Projects for year three (2021) will soon be considered, with learnings from the first previous years applied to enhance the Fund's impact.

Project Hope Alliance

FUNDRAISING EVENTS

Project Hope Alliance has a diverse stream of fundraising events. Each of our funding areas revolves around the needs of our kids. During the summer months, we fundraise for the new school year and during the holiday season, we fundraise to provide our families with holiday gifts. Each spring, we host our annual Anti Gala event. Currently, our Anti Gala is focused on the 200 youth on our waitlist.

VOLUNTEER & GIVING OPPORTUNITIES

Project Hope Alliance has several year-round and recurring volunteer opportunities for our seasonal campaigns. Volunteers in these campaigns assist in collecting monetary and in kind donations, packaging assistance bags for our families and students such as food, hygiene, and school supplies, and raising awareness for PHA's work and mission. Community members are also able to volunteer as mentors for our younger youth, who often lack the consistent and reliable presence of a trusted adult. Currently, we have 200 youth on the waitlist for our programs. We are searching for community members willing to be champions and advocates for these kids by donating and/or hosting their own online fundraiser and rallying their network.

GOALS FOR 2021

- ▶ Expansion of our case management program into surrounding cities in Orange County
- ▶ Enroll and serve 200 youth on our waitlist
- ▶ Launch a social enterprise training platform to educate communities and organizations on childhood homelessness

MISSION STATEMENT

Ending the cycle of homelessness, one child at a time.

Tilly's Life Center

MISSION STATEMENT

Tilly's Life Center (TLC) was born out of a need for a program that teaches teens the power of positivity, emotional competency, and the ability to take responsibility for their own success.

Teens are facing daily pressures like never before. From social pressure to academic demands, family issues to the pandemic — our adolescents have to deal with more now than ever. 17% of teens have seriously considered suicide, 30% have reported feeling sad or hopeless for at least two weeks, and one in five has a diagnosable mental health condition. We are truly facing a crisis amongst our youth. They are anxious, isolated, unable to cope, and afraid. This is why TLC takes a proactive and preventive approach to the growing social and emotional issues affecting teens today. The TLC program equips youth with the life skills and coping techniques they need to combat the staggering rates of suicide, anxiety, depression, bullying, school violence and addiction.

At Tilly's Life Center, we provide young people the tools they need to face challenges, improve self-esteem and resilience, cope with crisis, overcome the pressures they face daily, unlock the best within themselves and truly thrive. ***With an emphasis on mental health, our mission is to inspire today's youth to reach their full potential as productive, kind, happy, and responsible individuals.***

SERVICE AREA

With curriculum taught in High Schools and with other youth-serving partners, TLC's transformational program helps teens overcome the serious obstacles they are met with on a daily basis with astounding results. Our proactive approach uses experiential learning, journal writing, open discussions, and other activities to guide teens in effectively coping with crisis, adopting healthy habits and finding purpose.

 In an effort to continue to provide teens a service they so desperately need during the pandemic, TLC adapted our "on site" program to a highly interactive live virtual experience. Mental wellness has become especially crucial at this time, and TLC has met this need through providing teens quality online programming that builds sustainable, supportive relationships with TLC facilitators and peers.

FUNDRAISING EVENTS

Our annual fundraising events support our youth-focused programs aimed at empowering all teens with a positive mindset and enabling them to effectively cope with crisis, adversity and tough decisions.

FUNDRAISING EVENTS

Love Is Giving Day – February, 2022

GIVING OPPORTUNITIES

This year, WTLC is officially launching our capital campaign to transform our "Little House" property into transitional housing for survivors of domestic violence and human trafficking, as well as their children. Join us in creating a safe, comfortable, and welcoming home for survivors to recover from the trauma of violence and exploitation.

Or consider giving to our HERO Fund, which allows us to respond quickly and effectively to survivors' unexpected recovery needs. This past year taught us the importance of flexibility as we adapted our services to remain accessible to the survivors in our community during the COVID-19 pandemic. Our HERO Fund ensures we are equipped to address every survivor's needs as they arise.

GOALS FOR 2021

- ▶ Expand our transitional housing program to increase bed capacity and better serve survivors with ongoing barriers to establishing and maintaining stable housing.
- ▶ Continue to introduce services for people who have caused harm, helping to end the cycle of violence long-term by providing tools and resources for healthy relationships to those who have identified the need for change in their own lives.
- ▶ Further our commitment to Diversity, Equity, and Inclusion by intentionally developing our staff and Board of Directors to incorporate a variety of backgrounds, experiences, and voices that reflect and represent the populations we serve.

What was your greatest community impact in 2020?

The YMCA remained open in 2020 when the pandemic struck and provided...

- Over 2M hours of childcare for essential workers
- 1200 children assisted with distance learning
- 5400 personal phone calls to our senior members who were in isolation
- 2 "pop-up" child care locations near medical centers for frontline staff

In response to the pandemic and newly created protocols, our Child & Youth Development locations needed a tool that could enable children to gather in a classroom and allow for proper social distancing and teacher to child ratios. Tony Spriggs, a board member, invented, developed, and delivered a solution - classroom dividers. These allowed our programs to remain open to serve the greatest number of children in a safe environment.

1 Scholarship Awards

Scholarship donations of \$1,000 to college or trade school bound students in the Greater Orange County area who actively participate in our enrichment programs.

“The scholarship had made a huge impact on my education, I can stress less about my tuition. Thank you to the donors that impact someone's life, it means a lot to support the ones who crave success, the ones who are the future generation to build a better society. The scholarship decreased my tuition and allowed my parents to feel proud of my endeavors.”

3 Enrichment Workshops

Our passionate volunteers are committed to leading workshops on resume building, dressing for success, interviewing techniques, financial advising and many other life skills. Because of Covid-19 restrictions we have created pre-recorded video workshops, including assessments, which the students can access any time that fits in their schedules.

“My favorite video workshops are the resume series. These videos helped me create my first resume. He showed me what people are looking for and to think about the value of my experiences when writing my resume.”

2 Work Study Internships

Provides students with the opportunity to gain professional work experience, learn good work ethics and responsibility, and earn a stipend for their internship. Open to High School seniors.

“Through this internship I am learning a lot about myself - what my strengths and weakness' are as a leader and how to work with others with different personalities.”
